Proposed Endeavor for Jane Doe

Topic: A Test of Advanced Document Styling

This is the introduction to the test document. It should appear in a regular font style. This paragraph explains the purpose of the test, which is to verify that the PDF generation function correctly formats headers and body text.

FIRST MAJOR SECTION HEADER

This text should appear under the first bolded header. It's regular body text that describes the details of the first section. We are checking to see if the font correctly reverted from bold to regular.

ANOTHER IMPORTANT SECTION

Here is the second paragraph of body text, under a new bolded header. This demonstrates that the function can handle multiple sections within the same document, applying the correct styling to each part.

This is the final concluding paragraph, which should also be in the regular font style.
